Date: _____ Signature: _____

THIS DOCUMENT HAS TO BE RETURNED TOGETHER WITH THE GOODS

Rev.A

Packing instructions for return shipments

When the goods are prepared for a return shipment to Sodeco Valves, it is important they are packaged correctly to avoid any damage during transport.

This is why we kindly ask to not pile the goods in one cardboard box or pallet, but to use separate boxes and separation walls (or other filling materials) to avoid that the goods damage each other during transport.
Especially sensitive componentry such as limit switches, positioners, solenoid valves and actuators need to be well protected.

When the return goods have not been used, please send them back in their original packaging.

Return goods will NOT be reimbursed when they are delivered to us in a damaged state.
